January-February 2014

Dear Friends in Christ,

In January we returned home from spending October and November on the east coast. We had several meetings and a very busy schedule. We missed the real bad winter weather they are having this season. Being from warm South-Texas, we do not get excited about snow and ice :o)

Christmas morning at 3:00 AM, we awoke and discovered two prowlers in our back washroom and outside shed. I guess they were doing their "Blue Light" early Christmas morning shopping, of course, at our expense. I was able to run them off the property, even prowlers are afraid of guns :o) Yes, we had insurance and they settled with us within a few days. Nobody was harmed and things have been replaced.

We also relocated to a different house in December. We now live closer to our work and in a safer area. At first, it seemed strange not to hear dogs barking all night, as when we lived in the county. We do not hear cars screaming down our road, shots being fired, then sirens blaring. In spite of all this, we feel very safe here, because this is where God has called us.

Our oldest daughter, LeAnn, is having surgery on Monday, March 24<sup>th</sup>. Would you please remember her in prayer?

We are amazed at how God continues to use OREMUNDO here in the United States and around the Spanish-speaking world. Your prayers and financial support are appreciated.

Yours in Christ,

Eddie and Dianna Woodfield
