

September – October 2013

Dear Friends,

July, August and September were extremely hot and dry months. We did receive some rain in August, but it hardly settled the dust. It had absolutely no effect on our draught. We have lived in several arid areas in the past and have learned to leave the weather in God's hands.

We do rejoice in the advancement of our "Online Courses", as they are being blessed by the Lord. This opportunity is filling a great need in the Spanish-speaking area of our world. We are very grateful to Russell Raymer, as he provides these courses for students worldwide. He is also filming new courses at the University in Monterrey, Mexico for the future.

We have seen the need to train Spanish-speaking church leaders, worldwide. In the past, we were limited by shipping and other matters such as: customs, taxes and etc. But today with advance electronic communications, we are able to almost instantly make these courses available. God has opened a new avenue for us to reach and teach these men and women of tomorrow.

Our health is good at the moment, although we do see the doctors often. Some say this is the results of growing older.....I guess so :o)

Thanks for your love, prayers, and financial support of us and this ministry. You are greatly appreciated and we are indebted to all of you. Your prayers are so greatly appreciated!

Eddie and Dianna Woodfield
