

September – October, 2016

Dear Folks,

WOW, have we ever had an H-O-T summer. This was the hottest summer on record for our area. I guess you have heard the stories; "Cows were giving evaporated milk, and you could use seatbelt buckles for branding irons." As of this week, we are still in the mid 90s.

We are excited how God continues to open new doors and avenues for our online courses. We had a large Bible School in the United States request to forward all Spanish inquires to us.

A Bible School in the Ukraine has asked our ministry technician, Russell Raymer, to come for a couple of weeks to assist them. Russell is not a perfectionist, but if he does it for them, it will be installed correctly. He is excited about God using him for this project. Please pray for him. He has a vast amount of work to do in a short period. Hope we have no problems while he is gone :o)

September is normally the month that most schools start. The demand for our DVD Bible Courses will also be higher. Russell and the people helping him at the University in Monterrey, Mexico stay very busy. We appreciate their extra efforts and focus on the present, but also rejoice in their vision for the future.

Dianna has been able to spend some time with children and grandchildren in Pennsylvania. This past week she experienced a hard frost and a 37 degree morning. She is enjoying every minute, but asked for her long-johns....nobody wears those things here :o)

God continues to be soooo gracious to us and our family. He has also given us a wonderful Christian family in the Lord. So many of you pray for us, challenge us, encourage us, and financially help us. We love all of you and feel deeply indebted to each and every one of you!!!

Eddie and Dianna Woodfield
