

January – March, 2018

Dear Folks,

This year has started off at a very fast pace. The demands for our electronic Bible-Study materials continue to be used in Spanish-speaking countries around the world. A missionary in Aruba has started using our entire four years Bible curriculum. What a blessing to see how God is expanding this ministry. The online program is growing in popularity.

We have also seen a few new churches in the United States requesting our materials. If you are interested in seeing what we offer, please check-out our ministry website at: www.oremundo.org.

Please remember to pray for all the missionaries working at the university (UCLA) in Monterrey, Mexico. The city of Monterrey is still a dangerous area. The border is not improving and it is still very active with crime, drugs, human trafficking and etc. The border is an on-going turf war between drug runners, weapons dealers, and gangs seeking control.

Several have asked, if we feel safe. It is not a matter of feeling safe, but knowing God is in control. We seek to do nothing foolish and avoiding unnecessary risk at all times, but we continue to work at our ministries.

Your love, concern, prayers and encouragement is appreciated. We are looking for His soon return!

We thank our Lord for your faithfulness to us. Thanks to ALL OF YOU!!! You make our ministry possible!!!

Eddie and Dianna Woodfield
