January – February 2019

## **DEAR FOLKS,**

This has been a very unusual few months for the Woodfield family. First, let us share some good news concerning our ministry at OREMUNDO. I received a letter from one of our contacts using our materials.

Dear Eddie, I am forwarding a copy of an email from Brother Gonzales. As you can see the effort put into the training of Brothers from poor regions of the Dominican Republic is starting to bear spiritual fruit. Brother Gonzales is starting to work on getting these materials (OREMUNDO Bible Courses) into Cuba. We thank you so much for your help. As you know, the courses were originally headed to Cuba. We have learned the Holy Spirit makes the decisions and not us.”

Now for my trials these past few months. My computer has crash twice. Then I was hit with spyware. I lost most of my contacts and email addresses. Later I was able to recover most of them and reentered them on my new computer. This caused me not to be able to mail any prayers letters for about four months. This prayer letter should have us back up-to-date. I apologize, but a couple of things hindered me.

In January I suffered a massive heart attack. As of today, I am still moving and working in low gear (slow speed). I was fortunate, I was having my annual checkup at the doctor's office when it happened. They sent me directly to the ER. God manifested His wonderful Grace in my life. I am still not out-of-the-woods, if all else fails, I will need bypass surgery in Houston, Texas. This surgery would be performed at a later date. At present, they are trying medications and patience. We would appreciate your prayers concerning this situation.

We serve a wonderful God! He is totally in control of our lives. We have been missionaries for almost 48 years and He has NEVER failed us.

Thank you so much for your concern, love, prayers and financial support of our ministry. We stand indebted to all of you.

Yours in Christ,  
Eddie and Dianna Woodfield
