Dear Folks,

As we are all aware, things in this world changed very rapidly in the last couple of months. God took a very small thing (cannot be seen without a microscope) and changed this entire world. You cannot see it, smell it, taste it nor stop it. What an amazing God, He also did great things like this to Egypt. But remember this, He who started this event most definitely has the power to stop it. God is still on the Throne and very much in control.

God continues to bless the ministry here at OREMUNDO. Our courses are still being requested and sent around the Spanish-Speaking world. There is a great interest in the OREMUNDO Online Courses, which OREMUNDO offers. Being locked-in gives a person more time to study. If you know a Spanish speaking person, please have them contact us at; www.OREMUNDO.com to see the courses being offered. All courses are prepared, taught, filmed, formatted and reproduced at the University (UCLA) in Monterrey, Mexico. The teachers and studio people are doing a great job!

Health wise we are improving. I will be 76 this year and Dianna will be :O)...ask her. She is active in pulling and packaging courses that are to be shipped. We both still count it a JOY and PRIVILEGE to serve our Lord. Our desire is to honor God in the one life we have been given.

Yours in Christ,

Eddie and Dianna Woodfield

Philippians 4:17
