September-October 2020

Dear Friends,

We are finally seeing a break in our VERY HOT weather. We set heat records for the months of September and October. We have experienced several days over 100 even in October.

As usual, the Lord has been very gracious and is taking excellent care of us. We refuse to allow our circumstances to give us a negative attitude concerning our life or what God has called us to do. We have friends that are suffering worse, but still rejoicing in God's blessings. Our faith in God and a good attitude make a world of difference.

Dianna had surgery this pass week. She had 25% for her large colon removed. She is sore and moving slow, but healing and in excellent spirits. She will be seeing the doctor again next week. Please remember to pray for her during this recovery. We thank our Lord for giving us so many wonderful Christian friends!

The current situation is causing an increase of our Online Bible Courses. Most folks are staying in their homes and having limited outside exposure to the elements. The positive thing is this allows for more study time.

Your love, encouragement, concern, prayers, and financial support are all appreciated! You are faithful and wonderful friends!!! What a privilege to serve together with you.

Grateful Hearts in Christ,

**Eddie and Dianna Woodfield**
